My dear Mr. Wood:

I have been thinking over the offer you have made for the coins entrusted to you & have come to the conclusion that I prefer not to part with them at that price. If there any among the lot that the Society needs to complete or fill out a series I should be glad if you would designate them & I will then consider whether to present them to the Society or not. If there are none such I shall be glad if you will return the coins to me.

Very truly

Herbert Tindale
